

Core Church-Specific Features You Could Add to FLYN AI

Below are major capabilities in systems like **Church Center / Planning Center** that extend beyond basic CRM and events — and which would make your **FLYN AI Church Module** more **detailed, globally relevant, and generationally useful**.

1) Church Engagement Hub

A centralized congregation platform where members can:

- Browse **events, groups, sign-ups, and schedules**
 - View announcements, prayer requests, and updates
 - Access livestreams, recorded sermons, and media libraries
- This becomes the **front door of member engagement**, not just a backend CRM.
[Planning Center](#)

Add to FLYN AI:

- Church-branded mobile/web hub
- Personalized feeds for members
- Live updates & push announcements

2) Custom Church Center UI / CMS

Church Center offers a **content editor** to create pages, event collateral, custom menus, themes, and sermon interfaces. [Planning Center](#)

Add to FLYN AI:

- **Drag-and-drop CMS** for church microsites
- Custom landing pages for ministries
- Custom theme and color settings per church tenant

3) Donations & eGiving Management

Church Center & ChMS include:

- Online donations (credit/ACH/Pay)
- Recurring giving setup

- Donation reports and pledge tracking
 - Tax-compliant receipts
- This is **core** for churches' financial workflows. [Planning Center+1](#)

Add to FLYN AI:

- Online & mobile giving interface
- Recurring pledge builder + donor dashboard
- Financial reporting + transparency dashboard

4) Event Registration & Check-in

Complete event lifecycle:

- Public sign-ups
 - Attendance tracking
 - Auto reminders & confirmations
 - Self check-in kiosks
 - Room / resources scheduling
- This is foundational for community engagement and planning. [Planning Center+1](#)

Add to FLYN AI:

- Event signup + waitlist + auto-notifications
- QR self check-in & printable badges
- Resource & space booking

5) Volunteer & Service Scheduling

Planning Center's Volunteer Scheduling tools include:

- Roles & position definitions
 - Blockout dates & availability
 - Advanced rotation logic
 - Auto reminders
- This can reduce admin overhead significantly. [Planning Center](#)

Add to FLYN AI:

- Dynamic volunteer scheduling
- Auto-assign based availability
- Calendar sync with external services

6) Attendance & Participation Insights

Track attendance across:

- Worship services
- Small groups
- Events
- Ministries

With historical trends, segment charts, and growth insights. breezechms.com

Add to FLYN AI:

- Attendance dashboards
- Growth/performance reports by ministry

7) Group & Small Group Functionality

Members can:

- Join groups
- Chat within group context
- View group activities

This fosters community connection and retention. [Planning Center](#)

Add to FLYN AI:

- Group directories
- Group chats & announcements
- Group calendar

8) Media & Sermon Library

Church Center supports:

- Sermon audio/video
- Livestream integration
- Interactive sermon notes

This becomes a **continuously engaging content hub**. [Planning Center](#)

Add to FLYN AI:

- Media library (video/audio)
- Interactive notes & engagement modules

9) Member Directory with Self-Service Profiles

Directories showing:

- Household info
- Photos
- Contact info
- Group affiliations

Self-update capabilities strengthen accuracy and engagement. [Planning Center](#)

Add to FLYN AI:

- Profile self-service
- Privacy settings per member
- Directory search & filters

10) Notifications & Communication Tools

Church systems often include:

- Push notifications
- Email campaigns
- Whatsapp
- SMS reminders

Communication tools are integral to engagement. [Planning Center+1](#)

Add to FLYN AI:

- Multi-channel congregational messaging
- Preferences per member (email/SMS/app)
- Automated reminders for events, donations, volunteers

Advanced (High Impact) Features to Consider

These extend church tech beyond the basics:

A) Dynamic Follow-Ups & Workflows

Automated nurture flows for:

- New visitors
- First-time givers
- Volunteers
- Inactive members

These are *self-updating nurture machines*, like CRM drip sequences. [Planning Center](#)

Add to FLYN AI:

- Follow-up automations with configurable rules
- Personal pastoral tags and actions

B) CRM Enhancements for Churches

Add fields and analytics specific to churches:

- Baptism dates
 - Small group roles
 - Giving capacity scores
 - Discipleship stages
 - Ministry engagement tiers
- This increases relevance and segmentation. [9cv9 Blog](#)

C) Prayer Requests & Care Management

Let members submit requests and track pastoral responses.
Other ChMS tools support this deeply. [Gegosoft Technologies](#)

D) Multi-Church / Multi-Campus Support

Church Center users can link accounts across church communities. Improvements here provide huge global scalability. [Reddit](#)

Add to FLYN AI:

- Multi-church tenancy
- Central admin + local leaders views

Summary — Where FLYN AI Could Expand

Feature Category	Planning Center / Church Center	Value for FLYN AI
Engagement Hub	✓	Essential
CMS / Custom Pages	✓	High Value
Giving & Donations	✓	Core Module
Event Registration	✓	High Value

Attendance Tracking	✓	High Value
Volunteer Scheduling	✓	High Value
Groups	✓	Community Strength
Sermon/Media Library	✓	Content Hub
Member Directory	✓	Key Engagement
Communication Tools	✓	Must-Have
Advanced Church CRM	✓	Deep Customization
Multi-Campus	Partial	Enterprise Expansion

Strategic Recommendations

Phase 1 (Must-Have)

- Event registration + attendance
- Donation management
- Member directory + self-update
- Group & community

Phase 2 (High Value)

- Volunteer scheduling
- Sermon/Media library
- Automated follow-ups

Phase 3 (Leadership)

- Multi-campus + donor analytics
- Pastoral care workflows
- Life-stage tracking
