

Event Creation & Design Enhancements

✓ Beautiful Event Pages & Themes

Let organizers create **visually striking event pages** with:

- Cover images
- Custom layouts
- Seasonal or category templates

FLYN AI Add-On

- Library of customizable themes (confetti, formal, seasonal)
- Color and brand alignment
- Event visuals that match the organization's brand

Why it matters: Higher engagement and legitimacy. [App Store](#)

✓ Event Visibility & Privacy Controls

Luma shows whether events are:

- Public
- Private
- Members only

FLYN AI Add-On

- Visibility flags
- RSVP approval controls
- Password-protected events

Why it matters: Enables layered access for community and private events. [App Store](#)

Invite & RSVP Management

✓ Invites via Email, SMS, Push

Luma enables:

- Email invites
- SMS invites
- Push notification invites
- Contact sync (import from Google / phone)

FLYN AI Add-On

- Multi-channel invites
- Contacts integration (Google, CSV)
- RSVP links and calendar adds

Why it matters: Multi-touch outreach increases attendance. help.luma.com

Guest Registration & RSVP Handling

- Accept / decline responses
- Auto RSVP reminders
- Post-invite automation

FLYN AI Add-On

- RSVP tracking with statuses
- Waitlists
- Auto-reminders via SMS/WhatsApp/email

Why it matters: Improves data quality and reduces no-shows. help.luma.com

Add vs Invite Logic

Luma differentiates:

- **Invited guests** (need to accept)
- **Added guests** (auto confirmed + calendar invite)

FLYN AI Add-On

- Option to add VIPs directly
- Auto calendar integration

Why it matters: Useful for formal and high-control events. help.luma.com

Ticketing & Payments

Sell Tickets & Accept Payments

Luma supports:

- Ticket setup
- Payments
- Bank account connection
- Next-day payouts

FLYN AI Add-On

- Flexible ticket types (free / paid / sliding scale)
- Promo codes, tiers, group pricing
- Direct payouts
- Wallet / pass integration

Why it matters: Monetize events and reduce friction for paid experiences. [App Store](#)

Check-In & Attendance Tracking

QR Code Based Check-In

Luma includes:

- QR check-in
- Guest lookup by name/email
- Cohost check-in roles

FLYN AI Add-On

- QR check-in integration
- Attendance reports
- Multiple check-in portals

Why it matters: Professional in-person event flow. [App Store](#)

Social Features

Guest Chat / Networking

Luma enables attendees to:

- Chat with other guests
- Connect beyond events

FLYN AI Add-On

- Event-specific chat channels
- Give users the option to track contacts
- Integrate community engagement within events

Why it matters: Boosts retention through social engagement. [App Store](#)

Discover & Calendar Integration

✓ Events Discovery

Users can find:

- Local events
- Recommended community events

FLYN AI Add-On (Optional)

- Public event directory
- Geo-based event suggestions

Why it matters: Increases reach when events are open to broader audiences. [App Store](#)

✓ Calendar Sync

Luma supports:

- Add to Apple/Google Calendar
- Local Calendar subscriptions

FLYN AI Add-On

- One-click calendar adds
- Multi-calendar links
- Dynamic calendar feed for groups

Why it matters: Reduces friction and improves reminders. [help.lu.ma](#)

Notifications & Engagement Tools

✓ Automated Event Reminders

Push/Email/SMS reminders for:

- Upcoming events
- Registration confirmations
- Changes/updates

FLYN AI Add-On

- Configurable auto reminders
- Custom templates
- Attendance nudges

Why it matters: Reduces forgetfulness and boosts attendance. [App Store](#)

Analytics & Insights

Event Performance Metrics (implied)

Although less explicit in Luma's listing, many event platforms track:

- Registrations over time
- Engagement & conversion rates

FLYN AI Add-On

- RSVP trend charts
- Registration sources
- Channel conversion insights

Why it matters: Data-driven improvement of future events. help.luma.com

UX & Content Enhancements

Custom Event Themes & Visuals

Luma allows:

- Pre-made visuals and templates
- Custom cover images

FLYN AI Add-On

- Theme library with seasonal designs

- Custom branding upload
- Event microsite builder

Why it matters: Express personality and boost credibility. help.lu.ma

Optional but High-Impact Additions (inspired by broader trends)

AI-Powered Invite Personalization

Like emerging smart systems (including Apple Ai invites), use:

- Personalized invite copy
- Smart send timing
- Guest segmentation

FLYN AI Add-On

- AI invite suggestions
- Predictive engagement timing
- Social channel tailoring

Why it matters: Increases open & RSVP rates. [The National](https://www.thenationalnews.com/technology/2023/10/25/apple-ai-invites/)

Dynamic Guest Data Sync

Auto sync guest user data into CRM:

- Tag based on responses
- Add to follow-up sequences
- Convert RSVP to contact record

Why it matters: Converts events into CRM pipeline activity.

Strategic Feature Map for FLYN AI's Events Module

Feature Category	Luma Core	FLYN AI Add-On	Priority
Event Page Builder	✓	✓ Enhanced	High
Ticketing & Payments	✓	✓ Enhanced	High
Invites (Email/SMS/Push)	✓	✓ + AI	High
RSVP Tracking	✓	✓	High

Contact Sync	✓	✓	High
QR Check-In	✓	✓	High
Guest Chat	✓	✓ Community	Medium
Event Directory	✓	Optional	Medium
Calendar Sync	✓	✓ Integrated	High
Analytics	implied	✓ Full	High
Multi-Theme UI	✓	✓	Medium

Why These Extensions Matter

- ✓ **Professional event lifecycle:** From invite → RSVP → check-in → follow-up
- ✓ **Multi-channel reach:** Email + SMS + push + WhatsApp
- ✓ **Data flow into CRM:** Converts attendees into long-term contacts
- ✓ **AI engagement boosters:** Personalized invites & reminders
- ✓ **Branding & experience:** Custom pages & visuals enhance trust

Below is the **FINAL, ENGINEERING-READY ENTITLEMENT TABLE** for **FLYN AI — Events Module**, aligned with **Luma-grade UX**, your **pricing philosophy**, **cost-control**, and **enterprise scalability**.

This is written as a **single source of truth** for:

- Product
- Engineering
- Sales
- Billing / Feature Flags

No ambiguity. No overlap. No future refactors.
